From: June Whitmore

Dear Fellow Dog Owners,

Are you tired of your **consistently disobeying pet pooping and peeing** all around the house, **mauling anything** from your newspapers to your bunny slippers?

And what's more? It's just so embarrassing at how your dog loves to **jump on every guest in sight...**and no...the mail man's not to be spared either. :)

But the good news is that, you're not the only one! In fact many dog owners share the same experience and are looking for an **'instant' magical relieve** from dogs that just drives them insane.

And guess what....I truly understand how it feels too, because our dog, Munchie was exactly like that when he was new to the family...and we too, had to train him to obey us and avoid his annoying habits.

Now, if you are in that stage of training your dog to be **smart and obedient**, you have basically only two choices:

Go through **the trial and error method** that may not solve your problems at the shortest amount of time

OR

Use the methods that outlined in this **no-fluff ultra concise guide, that takes you step by step to understanding your new dog and have it potty, house and obedient trained in just 1 week or less!**

And you can also find some tested and tried examples of how you can **have more fun** with your dog by increasing its **interactivity**...because this ebook will show you how to teach your puppy or dog to **heed to your command almost instantly!**

Here is the list of some of the key points you will learn with our new 39 page guide:

-  **Orientation To Teaching Your Dog**
-  **Object Permanence**
-  **Socializing Your Dog**
-  **Aggression And Protection**
-  **Formal Obedience Training**
-  **Understanding Your Dog's Natural Ability**
-  **Teaching Your Dog Step By Step**
-  **Putting Learning Into Context**
-  **The First Day**
-  **Beyond Housebreaking**
-  **The 'GO' Concept**
-  **Command Training**
-  **First Commands**

🐾 **Developing Interactive Skills**

🐾 **Higher Thought Functions**
